Kevin Munjal, MD, MPH
New York Mobile Integrated Healthcare Association
C/O The Mount Sinai Hospital
One Gustav Levy Place
New York, NY 10029

Dr. Munjal,

On behalf of Bellerose Rescue Co., we would like to give our full support and endorsement to the mission of the New York Mobile Integrated Healthcare Association. We are excited to see an organization dedicated to promoting community and patient centered EMS and other modalities of mobile integrated healthcare. As an organization who was founded on the principles of helping our local community, we wholly support any effort that looks to improve the health of the community through EMS.

Additionally, we are happy to support any organization that promotes innovation in the current EMS climate. EMS has so much potential and is capable of providing so many more services than it currently does. However, in order to further the field it is imperative that changes be made first- such as changes in reimbursement structure from volume driven to outcome or value driven.

Bellerose Rescue, formerly the Queens Village- Hollis- Bellerose Volunteer Ambulance Corps, was formed in 1972, prior to the establishment of NYC*911 to provide ambulance service to its community. We are 501(C)3 not for profit organization dedicated to serving the neighborhoods of Bellerose, Queens Village and Hollis, Queens as well as Bellerose Village and Bellerose Terrace in Nassau County.

We wish you the best of luck in your efforts and you can always rely on us for any support you may ever need.

Sincerely,

Martin Braun
President
